EmerGeo Solutions Worldwide Inc.

Notes to Financial Statements
(Expressed in Canadian Dollars)

Three and Six Months Ended September 30, 2010 and 2009
(Unaudited)

1. Nature of Operations and Going Concern:

EmerGeo Solutions Worldwide Inc. (“the Company or “EmerGeo”) was incorporated on October 16, 1997 under the laws of British Columbia. The Company is in the business of developing, integrating, selling and supporting emergency management, environment health and safety, and security software solutions and services. EmerGeo’s own mapping software suite provides reliable, OpenGIS® based mapping solutions that help government and industry to mitigate against, prepare for, respond to and recover from potential and actual incidents, natural disasters, acts of terrorism or other major events.

These consolidated financial statements are prepared on a basis of accounting principles applicable to a going concern, which assumes the realization of assets and satisfaction of liabilities and commitments in the normal course of business.

For the six months ended September 30, 2010, the Company had generated revenues of \$363,127 as compared to \$1,542,810 from the prior period and has an accumulated deficit of \$5,618,631, including a loss for the six months ended September 30, 2010 of \$1,377,130.

The Company currently has credit facilities (Note 8) and is also actively trying to raise additional funds through equity financings, debt financings and other means in order to meet its obligations to March 2011.

The continuation of the Company as a going concern is dependent upon its ability to raise additional financing and ultimately attain and maintain profitable operations. To the extent the Company is unable to cover its ongoing cash requirements through operations, the Company expects to raise additional financing to cover any shortfall. There can be no assurance that such financing and profitability will occur in the amounts and with terms expected. In the event that cash flow from operations, if any, together with the proceeds from any future financings are insufficient to meet the Company’s current operating expenses, the Company will be required to re-evaluate its planned expenditures and allocate its total resources in such a manner as the Board of Directors and management deems to be in the Company’s best interest or curtail operations and there would be significant uncertainty whether the Company would continue as a going concern, and realize its assets and settle its liabilities and commitments in the normal course of business.

These consolidated financial statements do not reflect any adjustments, which could be material, to the carrying values of assets and liabilities, which may be required should the Company be unable to continue as a going concern.

2. Basis of Preparation and Consolidation:

These unaudited interim consolidated financial statements have been prepared in accordance with generally accepted accounting principles (“GAAP”) in Canada. They do not include all of the information and disclosures required by Canadian GAAP for annual financial statements. In the opinion of management, all adjustments considered necessary for fair presentation have been included in these financial statements. The unaudited interim consolidated financial statements should be read in conjunction with the Company’s audited consolidated financial statements including notes thereto as at and for the year ended March 31, 2010.

The accounting policies followed by the Company are set out in note 2 to its audited consolidated financial statements for the year ended March 31, 2010 and have been consistently followed in the preparation of these consolidated financial statements.

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, EmerGeo Solutions Inc., 0799998 BC Ltd., EmerGeo Solutions (US) Inc. and its 49% owned subsidiary, EmerGeo Software Solutions Middle East LLC (“EmerGeo Middle East”). The Company is also entitled to 80% of EmerGeo Middle East’s net profit/losses. All intercompany amounts and transactions have been eliminated on consolidation.

3. Adoption of New Accounting Standards:

(a) Financial Instruments

(i) Fair Value Hierarchy

In 2009, the CICA amended 3862, *Financial Instruments – Disclosures*, to include additional disclosure requirements about fair value measurement for financial instruments and liquidity risk disclosure. This amendment requires a three level hierarchy that reflects the significance of the inputs used in measuring the fair value as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly.
- Level 3 – Inputs that are not based on observable market data.

The amended section relates to disclosure only and did not have a material impact on the financial results of the Company.

The classification of the Company’s consolidated financial instruments within the fair value hierarchy as at September 30, 2010 is included in Level 1.

3. Adoption of New Accounting Standards:

(a) Financial Instruments

(ii) Compound Instruments

The component parts of compound instruments are classified separately as financial liabilities and equity in accordance with the substance of the contractual agreement. At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recorded as a liability on an amortized cost basis until extinguished upon conversion or at the instrument's maturity date. The equity component is determined by deducting the amount of the liability component from the face value of the compound instrument as a whole. This is recognized and included in equity, net of income tax effects, and is not subsequently remeasured.

4. Future Accounting Pronouncements:

(a) Multiple Deliverable Revenue Arrangements:

EIC-175 replaces EIC-142 Revenue arrangements with multiple deliverables for all revenue arrangements with multiple deliverables entered into or materially modified in the first annual arrangement consideration at the inception of an arrangement to all deliverables using the relative selling price method. It also changes the level of evidence of the standalone selling price required to separate deliverables when more objective evidence of the selling price is not available. Given the requirement to use the relative selling price method of allocating arrangement consideration, the use of the residual method is prohibited. Early adoption of this abstract is permitted. An entity can continue to apply EIC-142 until EIC-175 becomes effective. The Company expects to adopt this standard on April 1, 2011.

5. Deposits:

Deposits consist of investments which have maturity dates beyond three months. Included in prepaid expenses and deposits is a guaranteed investment certificate of \$30,000 (March 31, 2010 - \$40,000) which has a maturity date beyond three months and is secured against the Company's corporate credit cards.

During the year ended March 31, 2010, the Company discontinued the eLearning business section and re-developed the Company's website. As a result, an impairment loss of \$38,954 (2009 - \$nil) is recognized during the year ended March 31, 2010.

8. Credit Facilities:

- (a) EmerGeo Middle East has been granted a US\$500,000 line of credit facility by its joint venture partner, Atlas Communications Establishment. The loan has a term of one year and bears interest at 4.5% over and above Emirates interbank offered rate per annum compounded daily. Per the terms of the agreement, EmerGeo Middle East shall repay all principal and accrued interest not later than September 30, 2010 and in case of non-settlement on the payment date, an additional 2% will be charged on the loan. The loan is secured by a guarantee from the Company. As at September 30, 2010, the line of credit had a balance of \$514,955 (March 31, 2010 - \$507,792) and during the six months ended September 30, 2010, the Company accrued interest of \$20,458 (2009 - \$nil) on this loan. The Company is currently in negotiations with the lender to modify the repayment terms of this facility.

8. Credit Facilities (continued):

- (b) The Company has an operating line of credit with a maximum limit of \$150,000. As at September 30, 2010, the line of credit had a balance of \$nil (March 31, 2010 - \$nil) and bears interest at the rate equal to Royal Bank prime rate plus 1.8%. The credit facility is secured by a first priority lien on the assets of the company including, but not limited to, inventory, equipment, accounts receivable, chattel paper, documents of title, contractual rights and insurance claims, all patents, industrial designs, trade-marks, trade secrets and know-how, and all proceeds and renewals thereof.

9. Long-Term Debt:

- (a) Long-Term Debt:

The Company obtained a \$1,000,000 loan pursuant to a loan agreement dated November 5, 2009. The loan has a term of three years and bears interest at a rate of 16% per annum. The loan is secured by General Security Agreements from the Company and the Company's wholly-owned subsidiary, EmerGeo Solutions Inc., and by a guarantee from EmerGeo Solutions Inc. ("Security Agreements"). As additional consideration for the loan, the Company issued 400,000 share purchase warrants to the lender. Each share purchase warrant entitles the lender to acquire a common share of the Company at a price of \$0.50 per share for a period of three years expiring November 5, 2012. (Note 10(c)). During the six months ended September 30, 2010, the Company paid or accrued interest of \$79,998 (2009 - \$nil) on this loan.

- (b) Convertible Loan Note:

On September 28, 2010, the Company issued a convertible loan note ("Note") for proceeds of \$200,000. The Note has a term of five years maturing on September 15, 2015 ("Term"), bears interest at a rate of 16% per annum, payable monthly and is secured by Security Agreements. . The Note is payable at the end of the Term and in case of a default, the principal and final interest amount will accrue interest at a rate of 25% per annum.

The lender may, at its option at any time up to the end of the Term, convert the principal amount of the Note into common shares of the Company at a price of \$0.25 per share.

The face value of the Note was allocated between debt and equity components at initial recognition for accounting purposes. The fair value of the debt portion of \$151,593 was estimated using a discounted cash flow model method. The fair value of the equity component of \$48,407 was estimated using the residual value method. The debt component of the Note will be accreted over an expected life of 5 years using the effective interest method.

Balance, March 31, 2010 and September 30, 2010	2,235,325	\$ 1.11

During the six months ended September 30, 2010, the Company amended the terms of its 1,220,325 share purchase warrants. The original terms specified that each whole warrant was exercisable into one common share at a price of \$1.50 per share expiring on June 18, 2010. The Company amended the warrant exercise price from \$1.50 per share to \$0.40 per share and amended the expiry date from June 18, 2010 to June 18, 2013. The amended warrants contain a forced provision exercise whereby the warrant holders will be required to exercise their warrants within a period of 30 days if the Company's common shares close at or above \$0.50 for ten consecutive trading days, otherwise the warrants will, if not exercised, expire at the end of such 30 day period.

The Company calculated the fair value of the warrant amendment using the Black-Scholes valuation model to be \$141,366. The effect of this was to increase contributed surplus and deficit by \$141,366. The following weighted average assumptions were used in the valuation:

Risk-free interest rate	1.67%
Expected life	3 years
Annualized volatility	91.04%
Dividend rate	0.00%

During the year ended March 31, 2010, the Company extended the expiry date from December 7, 2009 to December 7, 2012 for 615,000 outstanding warrants that were issued in connection with a non-brokered private placement completed by the Company on December 7, 2007. No other terms of the warrants were amended.

(c) Warrants (continued) -

The Company calculated the fair value of the warrant extension using the Black-Scholes valuation model to be \$105,348. The effect of this was to increase contributed surplus and deficit by \$105,348. The following weighted average assumptions were used in the valuation:

Risk-free interest rate	1.13%
Expected life	3 years
Annualized volatility	97.57%
Dividend rate	0.00%

On November 5, 2009, the Company issued 400,000 share purchase warrants at a fair value of \$0.15 per share (Note 9(a)). During the six months ended September 30, 2010, \$10,043 (2009 - \$nil) in financing fees was recorded in the statements of operations for these warrants. The fair value of the warrants was determined using the Black-Scholes option pricing formula based on the following assumptions: expected dividend yield 0%; risk free interest rate 1.3%; expected life of warrants 3 years; expected stock price volatility 97%.

Share purchase warrants outstanding at September 30, 2010 are as follows:

Number of Shares	Exercise Price	Expiry Date
615,000	\$0.75	December 7, 2012 ⁽¹⁾
1,220,325	\$0.40 ⁽²⁾	June 18, 2013 ⁽²⁾
400,000	\$0.50	November 5, 2012
2,235,325		

⁽¹⁾ The term of these warrants was extended from December 7, 2009 (two years) to December 7, 2012 (five years).

⁽²⁾ The price of these warrants was reduced from \$1.50 per share and the term was extended from June 18, 2010 (two years) to June 18, 2013 (five years).

(d) Options -

On October 1, 2009, the Company established a new stock option plan, which provides that the Board of Directors of the Company may from time to time, in its discretion, and in accordance with the Exchange requirements, grant to directors, officers, employees and technical consultants to the Company, non-transferable options to purchase common shares, provided that the number of common shares reserved for issuance will not exceed twenty percent (20%) of the issued and outstanding common shares of the Company. The options will be exercisable for a period of up to ten years from the date of grant. The number of common shares reserved for issuance to any individual director or officer will not exceed ten percent (10%) of the issued and outstanding common shares and the number of common shares reserved for issuance to any one person will not exceed five percent (5%) of the total number of issued and outstanding shares. Any option granted under the plan which have been cancelled or terminated in accordance with the terms of the plan without having been exercised will again be available under the plan.

14. Financial Instruments (continued):

(a) Credit Risk (continued)-

The Company sells the majority of its products and services to government agencies responsible for emergency management within their jurisdictions, as well as to companies in industries responsible for their own emergency management programs, such as oil and gas, utilities, and forestry, located in Canada, United States, and the Middle East. The Company's exposure to credit risk associated with non-payment by customers of this nature to be limited, but may be affected by conditions or occurrences within its industry and the global marketplace. The Company closely monitors extensions of credit and performs ongoing credit evaluations of its customers' financial condition to manage its credit risk exposure. The Company believes it maintains adequate provisions for potential credit losses. The amounts disclosed in the consolidated balance sheet are net of allowances for doubtful accounts, estimated by the Company's management, based on prior experience and an assessment of current financial conditions of customers, as well as the general economic environment. As of September 30, 2010, accounts receivable are net of an allowance for doubtful accounts of \$Nil (March 31, 2010 - \$Nil).

(b) Liquidity Risk -

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities. The Company's approach to managing liquidity is to ensure that it will have sufficient liquidity to settle obligations and liabilities when due. As at September 30, 2010, the Company had cash and cash equivalents of \$120,265 and account receivable of \$476,097 to settle current liabilities of \$1,645,586 which mainly consist of accounts payable that are considered short term and settled within 30 days and amounts due to a related party which is non-interest bearing and no fixed terms of repayment. The Company's primary source of liquidity is its cash reserves. The Company also maintains certain credit facilities to support short term funding of operations and trade finance. The Company believes it has sufficient available funds to meet immediate operating cash requirements. However, the Company is also actively trying to raise additional funds through equity financings, debt financings and other means in order to meet its obligations to March 2011. The repayment schedule for our long-term credit facilities is included in notes 8 and 9.

(c) Market Risk -

(i) Interest Rate Risk -

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company's cash and cash equivalents attract interest at floating rates and have maturities of 90 days or less. The interest is typical of Canadian banking rates, which are low at present, however the conservative investment strategy mitigates the risk of deterioration to the investment. A change of 100 basis points in the interest rates would not be material to the financial statements.
