Whom It May Concern

**RE: EmerGeo Solutions Inc. and Fusionpoint**

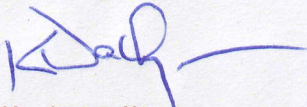

To Whom it may concern;

I am writing to confirm that EmerGeo Solutions, Inc. is a registered software supplier to the City of Vancouver, British Columbia. The City's Office of Emergency Management has been using the EmerGeo software for over 5 years for crisis management and situational awareness support during major emergencies and major events. Both EmerGeo Mapping and Fusionpoint Version 5 are installed and operational. The software has been instrumental in supporting management of incidents, operational activities, inter-agency communications and provides a historical log record of events for after action reporting and legal record. The software was recently used successfully to support security and emergency management activities during the 2010 Olympic Games® held in Vancouver and Whistler, BC.

The City of Vancouver is very satisfied with the products, technical support and services provided by EmerGeo Solutions. The City recently recognized EmerGeo with our "Partner's in Preparedness" Award. This award recognized EmerGeo's outstanding commitment and contributions to enhancing the City's emergency preparedness.

The City looks forward to continuing our collaborative work with EmerGeo and we are happy to recommend the company's crisis management products and services.

Best regards,

Kevin Wallinger  
Director of Emergency Management
